

## Registration Information

### New Client?

Anyone registering in programs for the first time since September 2007 must register in person at the control desk in the main lobby of the CARI Complex. All first time registrants are required to create an individualized user profile in person prior to having online registration access. The user profile can be completed prior to registration opening, by visiting the CARI Control Desk.

---

All persons choosing to register **online** for programs delivered by the Aquatics Department of the CARI Complex will be charged a \$1.00 convenience fee per participant registered.

### Returning Client?

Online Registration will open on the same date as walk up registration. Limited online registration spaces are available. While registering online, you have the ability to print all program schedules, official tax invoices, and to modify your client information. In addition, you will be asked to review and consent to our program cancellation and waiver policy.

Each individual client (or child) must have their own user ID and password. To access online registration you are required to provide CARI with a valid email address. Username and passwords can be obtained by telephone at 569-4584 Ext. 0.
